About R-Ladies

- Worldwide organisation whose mission is to promote **gender diversity** in the R community.
- The R community suffers from an **underrepresentation** of minority genders (including but not limited to cis/trans women, trans men, non-binary, genderqueer, agender) in every role and area of participation, whether as leaders, package developers, conference speakers, educators, or users.

About R-Ladies

- R-Ladies' primary focus is on supporting minority gender R enthusiasts to achieve their **programming potential**, by building a **collaborative** global network of R leaders, mentors, learners, and developers to facilitate individual and collective progress worldwide.
- Founded in October **2012** in San Francisco.
- In **2016**, global movement was born.
